Sounds good.

The sampling plan just arrived. I will attach a copy. Please let me know if you have any comments by January 11.

Hi Kenneth. I'm strapped for time today and tomorrow but I can maybe chat about it Thursday?

Mike,

I am finishing comments on a CSM tech memo for Lane Plating and I realized you may not have been cc'd when the document was sent out. I will attach a copy for your information and I will try to do better in keeping you informed in the future. The sampling plan will come out soon.

I think you are now the lead trustee for Star lake Canal since Mike Smith has moved to doing risk assessment. I have some issues I would like to discuss with you but I don't have your phone number. Could you give me a call or email me your phone number. I would like to ask your opinion on using a concrete cap in Jefferson Canal and talk about restoration options for Molasses Bayou.
